# Overview of the operating environment

- Sustained growth in Nigeria's economy with robust oil prices and increased government spending. Provisional 2Q-2011 GDP growth was 7.93%.
- Strong crude oil prices, as disturbances in the Middle East/North Africa persist. Brent Crude is recently trading at \$118/barrel.
- Inflation rate has been volatile this year. June figure was 10.2%, down from 11.8% in Dec 2010.
- 525 bids received by the Bureau of Public Enterprises (BPE) for the next round in the process of privatizing Nigeria's electricity sector.
- Expansionary budget of N4.97 trillion approved for 2011.
  - 18% higher than N4.22tr proposed by the Executive.
  - N2.47tr (49.6%) for recurrent expenditure.
  - N1.56tr (31.4%) for capital expenditure.
- Lull in stock market performance continues, as investor confidence remains weak.

# Developments in the banking industry

- CBN further tightened banks' capacity to lend:
  - Increased MPR to 8% in May; from 7.5% in March and 6.5% in January 2011.
  - Doubled Cash Reserve Ratio (CRR) to 4%, effective June 8 2011.
    - Liquidity squeeze causes hike in interest rates (interbank rates range between 6.25% and 10.25%)
    - Further rise in interest rates imminent as CBN threatens to withdraw guarantee on interbank placements by Sept-2011...
  - ...In addition to pronouncements that it will liquidate any rescued bank that fails to consummate its merger/acquisition talks with identified suitors.
- New operating licenses granted to 17 banks:
  - Hold co structures approved for UBA and three others.
  - Banks granted mono-line licenses to divest fully from non-bank subsidiaries by May 2012.
  - Technical agreements signed by (Access/Intercontinental; ACA/UBN; FCMB/Finbank)
- AMCON's round-two absorption of non-performing loans in progress – N500 billion set aside to acquire NPLs in the "healthy banks".
  - N1.7 trillion 3-year bond issuance completed on March 31, 2011.
  - Yields on the Bond range between 10.125 and 11.8% (vs. 12.25% yield for 3-year FGN Bond).
  - Listed on the NSE and eligible for trading.
- Periodic filings with SEC (Annual/Quarterly results, forecasts) to be accompanied by certification letters, signed by the CEO and CFO, in line with ISA 60 (2).

Revenue mix (N'bn), by class

Revenue mix, by geography (%)

Revenue distribution, by product

- Impact of loan growth on interest income not apparent in 1H11, as bulk of loan growth came towards the end of Q2.
  - Full reflection expected in 2H11.
- More contribution from African subsidiaries, resulting in 17% of Group revenues.
- Earnings on government securities and loans accounted for 61% of revenues.

# Fee-based revenues gain momentum

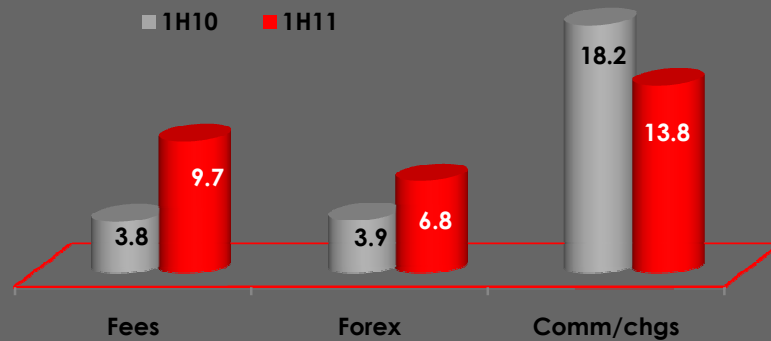

Stronger Revenues in 2Q11, (N'bn)

Fund-based revenues, by products (N'bn)

Fee-based revenues, by type (N'bn)

- Gross earnings stronger in second quarter...
- On the back of growth in non-interest incomes;
- Driven by credit fees, transaction and e-banking incomes.
- Yields came under pressure, as some loans were refinanced via the BOI window at rates lower than average market rates.

# Yield and margin analyses

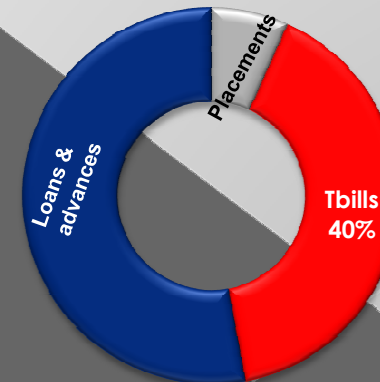

## Yields and margins reflect fund-based incomes

## Sources of fee-based income

## Sources of fund-based income

- Net interest margins slipped to 4.6% due to distortion in yield on earning assets.
- Interest incomes driven by loans, while commissions and charges induced growth in non-interest incomes.

# Operating income up, costs down

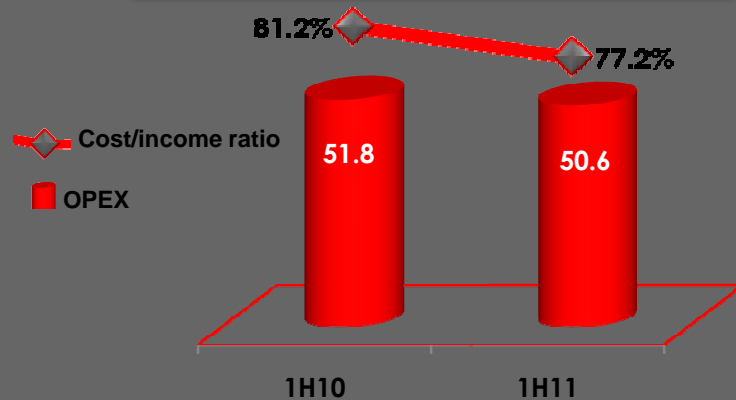

Growth in operating income (N'bn)

Geographical split of operating income

OPEX, Cost/Income ratio decline

- Banking income (operating income) expands.
  - Helped by growth in fee incomes and lower cost of funds.
- Other African countries contribute 19% (1H10: 13%) to operating income.
- Cost-to-income ratio down to 77.2%, as benefits from cost efficiency initiatives kick in.
