Commenting on the result, Kennedy Uzoka, the GMD/CEO of UBA Plc, said;

"Our performance in the first quarter of the year strengthens optimism on economic and business recovery in Nigeria and many of our markets in Africa. More importantly, this result is an evidence of efficiency gains in our pricing, balance sheet management and service-focused operations. Driven by our balance sheet liquidity, we grew interest income by 43% to an unprecedented quarterly run-rate of N77 billion. Buoyed by improving foreign currency supply in Nigeria, remittance and trade services fees almost doubled and foreign currency trading income grew 148% year-on-year, as we leveraged our Customer First initiatives to gain market share in these offerings. More so, it is my pleasure to report that we made further progress on our consistent retail penetration, as reflected in the 12% year-to-date growth in retail savings and current account deposits. Notwithstanding the tight interest rate environment, we recorded a 30bps reduction in cost of funds to 3.4%, a positive result of our customer service-led approach to low cost deposit mobilization. As at Q1, low cost savings and current accounts (CASA) represent 80% of our deposit funding.

The impact of Naira devaluation, higher fuel prices and elevated domestic inflation drove the growth of OPEX; albeit the cost-to-income ratio moderated 60bps year-on-year to 63.4%, which is in line with our 2017 target. Our businesses outside Nigeria continued to wax stronger, contributing 35% of earnings in the period. Notwithstanding our positive macroeconomic outlook, we remain prudent in risk asset creation; we grew net loans by 2% year-to-date, as we continue to monitor development in key sectors of the economy to take advantage of emerging bankable opportunities in due time. Notwithstanding the structural challenges in Africa, the opportunities and returns are immense and compelling. We will deepen our penetration across our chosen markets, as we diligently execute our strategies for consistent market share gain. I am confident that we have the right people, technology, products and strategy to win across our Africa."

Also speaking on UBA's financial performance and position, the Group CFO, Ugo Nwaghodoh said;

"Our performance in the first quarter further proves the resilience and the strong prospect of our businesses across our chosen markets. Beyond the sterling growth in top and bottom lines, I am particularly impressed with the quality of the earnings, which reflects our focus on the core business of financial intermediation and transaction banking. We furthered our efficiency gain, with a 40bps year-to-date improvement in net interest margin (NIM) to 7.1%, which reflects the simultaneous impact of higher asset yield and lower funding cost. Our profit after tax of N22.4 billion translates to a 19.4% return on average equity, which is broadly in line with our 2017 target. We remain steadfast on our prudent and proactive risk management, which helps to minimize the impact of the macroeconomic pressures on our portfolio. Our non-performing loan ratio stood at 3.95%, with a 136% provisions coverage (inclusive of regulatory risk reserve). We remained well capitalized and liquid to fulfill our growth strategy; 19.4% BASEL II capital adequacy ratio and 41% liquidity ratio, which present opportunity to explore the headroom in our low loan-to-deposit ratio of 61%.

CAUTION REGARDING FORWARD LOOKING STATEMENTS

From time to time, the Bank makes written and/or oral forward-looking statements in press releases and other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media and others. All such statements are intended to be forward looking statements. Forward looking statements include, but are not limited to, statements regarding the Bank's objectives and priorities for 2017 and beyond and strategies to achieve them, and the Bank's anticipated financial performance. Forward looking statements are typically identified by words such as "will", "should", "believe", "expect", "anticipate", "intend", "estimate", "may" and "could".

By their very nature, these statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the financial, economic and regulatory environments, such risks and uncertainties – many of which are beyond the Bank's control and the effects of which are difficult to predict – may cause actual results to differ materially from the expectations expressed in the forward-looking statements. Risk factors that could cause such differences include: credit, market (including equity, commodity, foreign exchange, and interest rate), liquidity, operational, reputational, insurance, strategic, regulatory, legal, environmental, and other risks. All such factors should be considered carefully, as well as other uncertainties and potential events, and the inherent uncertainty of forward looking statements, when making decisions with respect to the Bank and we caution readers not to place undue reliance on the Bank's forward looking statements.

Any forward looking statements contained in this press release represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank's investors and analysts in understanding the Bank's financial position, objectives and priorities and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf, except as required under applicable securities legislation.
